Steps

Step	1
Action	Open the URL https://carturesti.ro/ in a web browser.
Expected result	The homepage fully loads without any visible errors or broken elements.

Step	2
Action	Check if the Cărturești logo is visible and functional (clicking the logo redirects to the homepage).
Expected result	The logo is visible and correctly redirects to the homepage.

Step	3
Action	Check that the "PRODUSE" dropdown menu is visible and functional, displaying a list of categories when clicked.
Expected result	The "PRODUSE" menu is visible and functional, and the dropdown displays the categories correctly.

Step	4
Action	Click on each category in the dropdown menu to ensure it redirects to the appropriate category page.
Expected result	Each category link should open its respective page, displaying products related to that category.

Step	5
Action	Verify the presence and functionality of the search bar.
Expected result	The search bar is visible and allows text input.

Step	6

Action	Verify the language dropdown displays "ROMÂNĂ" by default and has an option for English.
Expected result	The language dropdown is functional and correctly displays the options.

Step	7
Action	Verify the "LIBRĂRII" link.
Expected result	The link is visible and correctly redirects to the bookstores page.

Step	8
Action	Check that the button displays "LOGIN" (or "SALUT" if already logged in) and is functional, allowing user login or logout.
Expected result	The "LOGIN" button is visible and functional.

Step	9
Action	Verify the presence of the help icon (question mark).
Expected result	The help icon is visible and functional.

Step	10
Action	Check the shopping cart button.
Expected result	The cart button is visible and functional.

Steps

Step	1
Action	Check that the main banner (e.g., "brat is back!") is fully loaded with image, text, and functional navigation arrows (left and right).
Expected result	The banner is displayed without any visual errors, with clear text and images. Navigation arrows allow switching between multiple banners.

Step	2
Action	Confirm the visibility and functionality of the following promotional icons and their descriptions: -Împachetare gratuită -Livrare în 24h -Cardul cu Prima Didactică
Expected result	Each icon is visible, the text is clear, and clicking on "Detalii" redirects to relevant informational pages.

Step	3
Action	Check for the presence of the "Voucher Cadou" message and the green button labeled "COMANDĂ-L AICI."
Expected result	The "Voucher Cadou" message and button are clearly visible, and clicking the button redirects to the voucher purchase page.

Step	4
Action	Scroll to the "NOUTĂȚI DE TOAMNĂ" section and verify product loading (images, descriptions, prices).
Expected result	Products and their details are visible and clear. The slider is functional.

Step	5
Action	Scroll to the "SPOOKY SEASON" section and verify product loading.
Expected result	Products are visible, and the slider is functional.

Step	6
Action	Check the "HALLOWEEN PARTY" section.
Expected result	Products are visible, and the slider is functional.

Step	7
Action	Check that the second banner (e.g., " Vegetariana – HAN KANG") is fully loaded with image, text, and functional navigation arrows (left and right).
Expected result	The banner is displayed without any visual errors, with clear text and images. Navigation arrows allow switching between multiple banners.

Step	8
Action	Verify the "TOP VÂNZĂRI" section.
Expected result	Products are visible, and the slider is functional.

Step	9
Action	Verify the "TRICK OR TREAT" section.
Expected result	Products are visible, and the slider is functional.

Step	10
Action	Check the "PRECOMENZI" section.
Expected result	Products are visible, and the slider is functional.

Step	11
Action	Verify the "NOUTĂȚI CU LIVRARE RAPIDĂ" section.
Expected result	Products are visible, and the slider is functional.

Step	12
Action	Verify the "VEȘTI DIN CĂRTUREȘTI" Section.
Expected result	Each title link in the "VEȘTI DIN CĂRTUREȘTI" section opens the corresponding article or page without errors.

Steps

Step	1
Action	Scroll to the footer section and verify the presence of each link in the "Linkuri utile" section: -DESPRE CĂRTUREȘTI -JOBURI -ASISTENȚĂ -LIVRARE ÎN LIBRĂRIE -COSTURI DE TRANSPORT -POLITICA DE CONFIDENȚIALITATE -POLITICA DE RETUR -BLOG CARTURESTI.RO
Expected result	Each link is visible and functional, redirecting to the appropriate page when clicked.

Step	2
Action	Verify the "Livrare gratuită" section.
Expected result	The text regarding free delivery is visible and accurate.

Step	3
Action	Verify the "Follow Us" section.
Expected result	All social media links are displayed and functional, redirecting to the correct social media pages.

Step	4
Action	Check the "Asistență telefonică" section.
Expected result	All assistance details are visible, correctly displayed, and the contact information is accurate.

Step	5
Action	Verify the "Cărturești te ajută" button.
Expected result	The button is visible, and clicking it should open a help or support dialog.

Actual result

Actual results: The search button (magnifying glass icon) does not initiate a search.
Expected results: The application processes the search request and redirects the user to the search results page.

mp4

2024-10-31_13h50

Steps

Step	1
Action	Locate the search bar on the homepage.
Expected result	The search bar is visible and easily accessible at the top of the homepage.

Step	2
Action	Enter the search keyword into the search bar (E.G.: "Baiatul cu pijamale in dungi").
Input data	"Baiatul cu pijamale in dungi"
Expected result	The search keyword is successfully inserted.

Step	3
Action	Click on the search button (magnifying glass icon).
Expected result	The application processes the search request and redirects the user to the search results page.

Verify if product filtering works correctly for selected criteria

Steps

Step	1
Action	Click on the "PRODUSE" and "CARTE" to navigate to the product listing page that includes a selection of books.
Expected result	The page loads and displays a variety of books.

Step	2
Action	Check if filtering options for category, availability, and price range are available.
Expected result	The filtering options are visible and accessible.

Step	3
Action	Select an available category filter.
Input data	**Book Category:** Psychology
Expected result	The product list updates to show only products from the selected category.

Step	4
Action	Set the availability filter "Disponibil online" to "In Stoc-livrare24h".
Input data	• **Availability:** In Stoc-livrae24h
Expected result	The product list updates to show only products that are available.

Step	5
Action	Set the price range filter.
Input data	• **Price Range:** 200 - 400 lei

Expected result	The product list updates to reflect the selected price range.

Step	6
Action	Verify the displayed psychology books after applying all filters.
Expected result	All displayed books should: • Belong to the "Psychology" category. • Be priced between 200 and 400 lei. • Be available in stock.

Step	7
Action	Check that the displayed products meet the applied filters.
Expected result	All displayed products should comply with the selected criteria for category, availability, and price.

Steps

Step	1
Action	Open a browser and navigate to https://carturesti.ro/.
Expected result	The browser opens and the webpage successfully loads.

Step	2
Action	Click on the "LOGIN" button in the upper right corner.
Expected result	A pop-up for login or registration appears.

Step	3
Action	Click on "UTILIZATOR NOU".
Expected result	The pop-up expands, displaying the registration fields.

Step	4
Action	Enter the valid email.
Input data	Email address: cristiana.livadariu@gmail.com
Expected result	The email address is successfully inserted.

Step	5
Action	Enter the password.
Input data	Password: parolamea

Expected result	The email address is successfully inserted.

Step	6
Action	Complete the CAPTCHA verification - check the "Nu sunt robot" checkbox.
Expected result	The CAPTCHA verification is successfully completed, allowing the user to proceed with registration.

Step	7
Action	Click on the "SIGNUP" button within the pop-up.
Expected result	The user is redirected to the main page, and a success message is displayed, such as: "Inregistrarea a fost realizata cu succes. Am trimis un email de confirmare catre adresa furnizata."

Step	8
Action	Check the email inbox for the confirmation email.
Expected result	The user receives an email with instructions to confirm their account.

Step	9
Action	Click on the confirmation link in the email.
Expected result	The link redirects the user to the application, confirming that their account has been activated.

Step	2
Action	Click on the "LOGIN" button in the upper right corner.
Expected result	A pop-up window for login and registration appears.

Step	3
Action	Click on "UTILIZATOR EXISTENT".
Expected result	The pop-up expands, displaying the login fields and "Ai pierdut parola?" link.

Step	4
Action	Click on the "Ai pierdut parola?" link.
Expected result	The application redirects the user to the password reset page where they are prompted to enter their email address.

Step	5
Action	Enter the valid email address in the "Email" field.
Input data	cristiana.livadariu@gmail.com
Expected result	The email address is successfully inserted.

Step	6
Action	Complete the CAPTCHA verification - check the "Nu sunt robot" checkbox.
Expected result	The CAPTCHA verification is successfully completed, allowing the user to proceed with registration.

Step	7
Action	Click on the "TRIMITE" button to request a password reset.
Expected result	The application processes the request and redirects the user to the main page, displaying the message: "Am trimis un email de resetare a parolei.".

Step	8
Action	Check the email inbox for the password reset email.
Expected result	The user receives an email from the platform containing a link or instructions for resetting the password.

Step	9
Action	Click on the password reset link in the email.
Expected result	The link redirects the user to a secure page on the website where they can create a new password.

Step	10
Action	Enter the new password in the "Parola" field.
Input data	parolanoua
Expected result	The password is successfully inserted.

Step	11
Action	Re-enter the new password in the "Repeta Parola" field.
Input data	parolanoua
Expected result	The password is successfully inserted and both passwords match the specified criteria.

Step	12
Action	Click on the "Salvează parola" button.
Expected result	The application redirects the user to the main page and displays the message: "Noua parolă a fost salvată."
